PUBLIC SCHOOLS AT SALTAIR

feachers Endeavoring to Arrange Day-Opal Club to Go to Lagoon Next Thursday.

Occasionally a traveler loses or forgets his trunk or his grip when traveling on the rallways and as a result the luggage rooms are occasionally congested with such unclaimed property. The only way to get rid of them fairly is for the railroad company to put the articles up at auction sale before the public. Tomorrow is the day selected by the Rio Grande Western for its annual clean-up, and so, at 3 o'clock in the afternoon, the sale will be on at the depot baggage room. Everybody is invited to take a hand in the bidding, and the more people there are in attendance, the better will the railroad men be pleased. Sometimes a piece of valuable baggage is obtained very cheaply in this way. Occasionally the contents of a trunk have been found to worth many times the money paid for the plece.

Schools at the Lake.

The public school teachers of the city are endeavoring to arrange a date at Saltair in the first week of June for the teachers and pupils of the schools. Excursion Agent Mann is helping the "school-marms" to bring arrangements to this end to a satisfactory conclusion. Every date in June, excepting in the first week, has been taken, there being eighteen Sunday schools represented in the bookings.

Opal Club to Lagoon.

The Opal club, through Chas. E. Berry, has arranged with Excursion Agent Bean for a special day at Lagoon be-fore the regular opening for the sumner. A special train will be provided for members of the club, which will leave the depot at 7:30 in the evening. Arriving at the resort the club members and their guests will be given the freedom of the grounds and will regale themselves in a supper and also enjoy some dancing, for which the club furnishes its own orchestra.

"Gas Angels."

Some funny things will sometimes unconsciously happen, and not the least among them is the address upon a let-ter received today by the Salt Lake & Los Angeles Railway company from a firm of art calendar printers in New York. It read like this: "Salt Lake & Gas Angels Railroad Company," etc.

Strike is Breaking.

Sixty-two men from Cleveland arrived here today to work for the St. Louis Transit company. At the Union station, Patrolmen Bacon and Robertson searched them. In the pockets of three were found revolvers. These meh, Wm. J. Anderson, William Kelly and Frank Curtis, were arrested.

The Suburban road, which has entirely resumed traffic, is doing an immonse business. Members of the city detective force, who have been held in reserve at the four courts during the strike, patrolled the city last night and in consequence there was very little wire cutting or destruction of street

A statement regarding the street rallway strike, signed by several hund-dred business men of St. Louis, says the demands of the railway employes are "extreme and radical," and that "no business organization could be successfully managed on the lines laid down, and the interests of employes could never be well protected by employers who in their operations were compelled to ignore fundamental business principles.

Another conference is being held this afternoon between Prest. Whittaker and the strikers' grievance committee.

A member of the committee said, previous to the meeting:

"The conference this afternoon must settle the strike or the union will at

settle the strike or the union will at once proceed upon its campaign along

the lines originally laid down."

It is said the only point now at issue is the original and vital one of unionism. The strikers contend that all employes of the Transit company must be-long to the union and that this demand

will be insisted upon.

The company, it is said, still insists upon a clause relating to unionism in which membership in the union shall not be made obligatory.
Unless an agreement is reached at

this conference, the meeting of allied labor organizations of the city; called for tonight, will be held and the advisability of calling a general suspension of labor will be considered.
